

IGHA – HYVOLUTION INDIA 2026

Conference Tracks

The IGHA – Hyvolution India 2026 programme is built around the questions that actually matter to the people building India's hydrogen economy. Every theme, every session, every roundtable is selected because it moves the needle.

STRATEGIC CONFERENCE THEMES

The Strategic Conference addresses the big questions – policy, investment, market structure, and international positioning. These are the conversations that determine the direction of India's hydrogen economy.

Strategic Conference — Key Themes	
Global Hydrogen Policy & Governance	India as a Green Hydrogen Manufacturing Hub
Scaling Green Hydrogen: From Electrolysers to Gigawatt Economies	Building Domestic Strength: Supply Chains, Manufacturing & Localisation
Powering Hydrogen: Integrating Renewables with Energy Systems	Hydrogen and Energy Security: Redefining National Energy Strategies
Building Global Hydrogen Corridors: From Vision to Reality	Rewiring Energy Systems Through Green Hydrogen
Building the Backbone: Infrastructure, Storage & Logistics	Setting the Rules: Standards and Certification for Green Hydrogen
Reimagining Maritime: Hydrogen, Ammonia, and the Future of Shipping	Deep Decarbonisation: Industrial Transformation at Scale
Ensuring a Just and Sustainable Hydrogen Transition	Skills, Talent & Innovation for a Hydrogen Future

Session formats: Leadership Keynotes • CEO Panels • Country Spotlights • Global Insights Keynotes • Investment Talks • Fireside Chats • CEO Roundtables (Closed-Door)

TECHNICAL CONFERENCE THEMES

The Technical Conference goes deep into the engineering, innovation, and commercial challenges of hydrogen deployment. Built for practitioners and innovators who need real answers, not keynote-level summaries.

📍 INDIA EXPO MART, GREATER NOIDA (DELHI NCR) 📅 17- 18 November 2026

Technical Conference — Key Themes

Hydrogen Production & Electrolysers	Storage, Transport & Distribution
Hydrogen Derivatives: Ammonia, Methanol, E-Fuels	Industrial Decarbonisation Applications
Hydrogen Mobility & Fuel Cells	Power, Renewables & System Integration
Digitalisation, AI & Performance Optimisation	Engineering, EPC & Project Scale-Up
Safety, Standards & Certification	Cost Reduction & Techno-Economics
Emerging Technologies & Innovation	Operations & Asset Management

LEADERSHIP ROUNDTABLE TOPICS

Invite-only, closed-door dialogues for senior decision-makers. Each roundtable is focused on a specific challenge – and designed to produce alignment, not just discussion.

- CEO Circle: Strategic Priorities for Hydrogen Growth
- Unlocking the Cost Curve: Pathways to Affordable Green Hydrogen
- Investor Roundtable: Enabling Capital for the Hydrogen Transition
- Creating Demand at Scale: Strengthening Offtake and Market Development
- Global Leaders Dialogue: Building Collaborative Hydrogen Ecosystems

NOTE
