

📍 INDIA EXPO MART, GREATER NOIDA (DELHI NCR) 📅 17- 18 November 2026

THE TEAM BEHIND IGHA – HYVOLUTION INDIA 2026

Three organisations. One shared mission. IGHA – Hyvolution India 2026 is the result of a partnership that brings together global exhibition expertise, deep Indian market knowledge, and on-the-ground event execution at the highest level.

GL Events – Global Platform Partner

GL Events is one of the world's leading exhibition and event management companies, operating across 20+ countries with a portfolio of over 200 public and professional events. Through its GreenTech+ division – dedicated to ecological innovation and sustainable development – GL Events organises the Hyvolution series: the world's leading international exhibition dedicated to the hydrogen ecosystem.

The Hyvolution series began in Paris in 2016 with around 40 exhibitors. It has since grown into a global platform representing 600+ exhibitors, 65+ countries, and a community of over 40,000 hydrogen professionals. GL Events brings that platform, that credibility, and that global reach to India for the first time through IGHA – Hyvolution India 2026.

GH2 India – India Co-Organiser

GH2 India is India's foremost green hydrogen industry alliance – the organisation that brings together the full spectrum of stakeholders working to build India's hydrogen economy. Members include large industrial groups developing major projects, innovative SMEs and startups, research institutions, financial bodies, and government agencies.

GH2 India works in close partnership with the Ministry of New and Renewable Energy (MNRE) and the National Green Hydrogen Mission to shape the policy environment, accelerate project development, and position India as a global leader in green hydrogen. GH2 India has deep roots across India's hydrogen ecosystem.

For IGHA – Hyvolution India 2026, GH2 India develops and leads the India Green Hydrogen Assembly – the high-level congress that anchors the event with Indian policy authority, domestic industry credibility, and a programme built around India's real market priorities.

Apoltos Events Pvt Ltd (AEPL) – Event Manager

Apoltos Events Pvt Ltd is a specialist B2B event management company based in New Delhi, focused on creating high-impact business ecosystems that bring together decision-makers, industry leaders, and innovators. AEPL is responsible for the on-the-ground management and execution of IGHA – Hyvolution India 2026 – from venue management and exhibitor services to delegate coordination and marketing operations.

AEPL's role is to ensure that the global ambition of the Hyvolution platform and the domestic authority of GH2 India are translated into a seamless, world-class event experience for every exhibitor, delegate, sponsor, and visitor who comes through the doors of India Expo Mart on 17 and 18 November 2026.

Government Support

IGHA – Hyvolution India 2026 is supported by India's National Green Hydrogen Mission (NGHM) under the Ministry of New and Renewable Energy (MNRE), Government of India. This support reflects the event's role as a platform for advancing India's national hydrogen ambitions – and the government's recognition that private sector engagement, international collaboration, and market development are essential to delivering on the Mission's 2030 targets.
